

OUR CHEDER'S VOICE

CHEDER CHABAD BOYS DIVISION

LETTER FROM THE MENAHEL:

Dear Parents,

As Yaakov Avinu goes to *choron* where he will build a family he makes a pledge, אם יהי' אלקים עמדי, if Hashem will be with me and protect me . . . and Hashem will be my strength.

This remind us that in our holy *shlichus* of raising *chassidishe* children and *bochurim*, Hashem is *imodi*, walking alongside us every step of the way. Hashem is our partner not only in the physical sense, like the *gemoro* says: שלשה שותפים באדם, there are three partners in the creation of man, but in the spiritual sense as well, like *chazal* say בניך אלו התלמידים, that Hashem helps us navigate forming a connection and bringing light to every individual at their level.

Our dedicated *melamdin* deserve a big thank you for making the Yud Kislev *seudos* a smashing success. Thank you Eli Marcus for coming to the cheder to sing and *farbreng* with our talmidim and impart a *chassidishe varimkeit*, warmth to our talmidim. The students were so happy to see him and he succeeded in bringing the joy of the celebration to the fore.

Thank you Rabbi Sosover for coordinating the various programs and for keeping the celebratory feel of all chodesh Kislev ablaze. We are looking forward to the continued joy of Chodesh Kislev permeating the cheder atmosphere.

Good Shabbos,
Rabbi Kaplan

MOTZOAI SHABBOS, י"ט כסלו, DECEMBER 5 -

CANCELED COMMUNITY MELAVA MALKA

UPDATED CALENDAR-NO TRANSPORTATION
DAYS FOR ALL DISTRICTS MARKED IN

A PEEK AT OUR WEEK

Our first graders have been busy practicing their handwriting. They pay careful attention to make sure that they follow the head, belt, and foot lines so neatly. In math, the class used their special ten-frame train kit, an actual train with ten holes to hold cubes that were added by the boys. Each cart that was connected to the train added another ten. As they rode along the 'math train' the first graders passed the mid-chapter review with flying colors as they used colorful crayons to answer the math examples. The boys are getting proficient in addition with sums in the teen numbers. Keep it up first grade!

Mrs. Nadav's class has been doing a lot of writing, and the boys' sentences are getting longer and more complex. Some of the boys are already writing paragraphs. This week they concentrated on nouns, and each day they chose a different noun to write about. In science they explored the concept of water tension and experimented with it. The boys used pipettes to carefully place drops of water on a penny, and they watched how the penny was able to actually hold much more water than would seem possible. They then floated a paper clip on the surface of water until some soap managed to break through the water tension. The biggest excitement of the week was when the boys finally reached their goal of 1000 points on their chart! That entitled them to a special trip out to get a very delicious treat!

Miss Klatzko's second graders are flying through Chapter 3 in math! The boys have already mastered addition and are becoming pros in subtraction. By analyzing the examples and using different methods to solve the problems, the boys are developing their thought process and expanding their understanding of numbers. The class began reading clubs this week and how exciting it's been! The boys had a great time naming the clubs and practicing reading with their new "counter-pointers". Everyone demonstrated their maturity by working together with their club to complete the chapter on their own. It is exciting to watch the counter-pointers fill up with stars as the boys aim towards their goal of earning 20 stars!

The boys' creativity has been sparked with the exciting handwriting questions that are posed each day. Which country would you want to visit and why? The sky is cloudy and gray; the world is silent. What happened next? Miss Klatzko truly enjoyed hearing everyone's imaginative and intelligent responses. Following current events with "News on the Run" gives the class a peek into what is happening in the world.

It has been a busy week in Mrs. Volfman's grade 3, B"H. This week the boys continued to learn strategies to remember their multiplication facts. The class started a new chapter in vocabulary and practiced using the words. The highlight of the week was the completion and presentation of the class's animal projects. The boys also read and learned all about endangered species.

Mrs. Eckstein's third graders have been busy this week telling time and figuring out elapsed time; and it can be quite a challenge! That's okay, they love challenges; it keeps them on their toes! In reading the boys learned more morals and lessons from Aesop's Fables. In cursive the class has progressed to the letter "d"! In science the class is continuing their unit on the 5 Senses. On Tuesday, Mrs. Eckstein brought in a jar of salt and a jar of sugar, and the boys had to solve the mystery as to which jar had what by using each of their 5 senses! On Wednesday the boys wrote "Sensory Poems". When Mrs. Eckstein read back what the boys had written about popcorn, the adjectives they used made them so hungry! And the poem about snow was a real hit! While we are not sure about whether or not it's going to snow next week, one thing we are sure of; that b'ezras Hashem next week the class will be making popcorn to experience real popcorn with all of their senses!!

This week Mrs. Levin's class made great strides in learning long division. They had a division party to celebrate their success. The boys were very interested to read about seashells and shared their personal experiences collecting magnificent, colorful niflaos Haborei.

Have a wonderful Shabbos!

CHEDER YARMULKAH SPONSORS

ABEL FAMILY - for the Refuah Sheleima of Tuvia Halevi Ben Devorah

HERRMANN FAMILY - for the Refuah Sheleimah of Moshe Dov ben Avraham Daniel Yosef Ben Moshe Dov
