

OUR CHEDER'S VOICE

CHEDER CHABAD BOYS DIVISION

LETTER FROM THE MENAHEL:

Dear Parents שיחיו,

Shabbos Yud Shevat is a day spent thinking about *hiskashrus*, connection to the *Rebbe*. Two of the prominent themes to which the *Rebbe* returns again and again are *Ahavas Yisroel* and *hamaaseh hu hoikar*.

I would like to tie these two themes into our thoughts about *hiskashrus*. Our motivation to embrace every person should be a direct result of our *hiskashrus* to the *Rebbe*. The *Rebbe* availed himself to meet with anyone, and welcomed EVERYONE warmly בסבר פנים יפות. We too should avail ourselves to be kind and welcome EVERY person.

Our interactions with others should focus on action, doing nice things for them and speaking nicely about them. This defines *dirah betachtonim*, utilizing the physical world to do *mitzvos*.

The sincere and pure *tefillas* of our *talmidim* at the *Ohel* touched me deeply. These precious moments are indicative of the *chassidishe chinuch* that is being instilled in our *talmidim* by our dedicated *melamdim*. Our partnership is being *matzliach* B"H in raising children whose hearts are open to *ruchnius* and whose inspired actions place them at the forefront of bringing *Moshiach*.

We continued marking *Yud Shevat* with various programs today by running the Connection Point program and will continue on Sunday *IYH* with *farbrengens*. May the *farbrengens* be "*hisvaduyos peilim*" as the *Rebbe* wrote in many telegrams.

Wishing you a good Shabbos,

Rabbi Kaplan

SCHEDULE
REMINDERS

Tuesday, January 26: Kol Hatorah
Kula Test #3

February 5-8: Mid Winter Break

Cheder policy Reminder, if for any reason you take your child/ren out before the break begins or have them return after the break you must notify the cheder in advance.

A PEEK AT OUR WEEK

What a wonderful week the third grade had! In math the boys were tested on their multiplication tables, from 1-5. They practiced their families of facts so that they know their multiplication tables not just forwards, but backwards as well!! In reading the boys learned about simple machines. On Wednesday Mrs. Eckstein brought in Tinker Toys for the class to 'tinker' with and make simple machines. Some groups followed a list of instructions to make a propeller/rotor. Other groups made their own inventions such as a robot and even a satellite (that started out as a weather vane!). Mrs. Karash came in and complimented the boys on their wonderful inventions. The sheet with instructions for the invention project will be given out on Monday or Tuesday, and will be due the week after midwinter vacation. Mrs. Eckstein is looking forward to seeing what amazing ideas the boys will think up!

Mrs. Volfman's third graders continued learning about capacity in their math unit this week. They created Their own "Gallon Man" and did activities to help them understand customary units of capacity that measure liquid volume. In reading they read about the importance of recycling as well as ways to recycle. They extended this idea to their writing and wrote about different ways that we can recycle. They ended the week with current events – News on the Run.

This week Mrs. Levin's fifth graders reached the end of their unit on decimals. They learned to "take the ball to the wall" to remind them to move the decimal over equally in the dividend and divisor. The boys enjoyed playing a memory game matching synonyms and antonyms. Inauguration day of the 46th president was noted. Many boys voiced concern for the term ahead. Others expressed the need to leave all in the hands of Hashem. Have a wonderful Shabbos!
