

Our Cheder's Voice

Cheder Chabad Boys Division

Letter from the Menahel:

Dear Parents,

The Talmidim returned to Cheder invigorated and ready to learn BH. From every corner of the cheder the sound of Torah, *hakol kol Yakov*, can be heard pouring forth.

This Shabbos marks 28 Nisan, the day when the Rebbe beseeched us to do all we can and bring forth the revelation of Moshiach into our world now. Being that it is difficult to know if we are doing all that we can, Perhaps the interoperation and suggestion offered here can help us express this call.

The Rebbe's message empowers us to continually strive for more; to keep pushing ourselves to dedicate all our resources, mind and heart, soul and spirit to bringing Moshiach now.

On this *Shabbos mevarchim*, let's encourage our children to express the spirit of being all that they can be in thought speech and action. **Thought:** to think about what they can do to increase their efforts to bring Moshiach. **Speech:** to truly challenge themselves in saying as much *tehillim* as they can. **Action:** to help others by doing kind acts over Shabbos for the merit of hastening the revelation of Moshiach.

This week's newsletter includes a feature called Mivtzah Torah. This section features anecdotes of extracurricular learning happening by cheder talmidim voluntarily. May these anecdotes serves as an inspiration to all our talmidim to raise their personal bar and DO ALL THEY CAN DO in the area of learning Torah.

Wishing you a *geulah'dike* Shabbos,

Rabbi Kaplan

A PEEK AT OUR WEEK

Spotlight on the third grade:

The third grade boys returned from Pesach vacation refreshed and ready to learn! On Tuesday they were treated to a fascinating STEM class by Dr. Shnitzel on how to protect eggs from cracking. They did experiments to find out how to cushion an egg so that it would not crack.

In math, Mrs. Eckstein's class has progressed to the next level in multiplication and division. PLEASE ensure that your son reviews until he knows his multiplication and division VERY well; test next Thursday iy"H. In science the boys have almost completed their unit on weather; and of course, they did ELA as well. This week they completed all the lower case letters in cursive! Next week they begin the capital letters.

Mrs. Volfman's third grade boys went right back into learning division and practicing their division facts. In writing this week the boys wrote beautiful detailed paragraphs all about their Pesach vacation. They ended their week with current events- News on the Run!

Have a wonderful Shabbos!

Siyum - Maseches Pesachim

Joining Cheder Chabad's *masmidim* who spend their free time engrossed in לימוד התורה, our 5th-grade *talmid*, Avremel Sirota, made a *Siyum* today on the entire Mishnayos פסחים followed by a beautiful הדרן.

We are proud of Avremel and wish him and his family Mazel Tov and much hatzlacha in being more מסכתות in the future.

ללימוד וללמד

Over Yom Tov, *talmidim* living in the vicinity of Beis Levi Yitzchok and Anash at 110 took the podium in giving *deroshos* in the presence of their parents, *Rabbonim*, and the local Anash. The **Wolfsen** brothers (**Dovid** and **Daniel**), **Schneur Simcha Huisman**, the **Elisha** brothers (**Dovid Yedidiah** and **Mendel**), and **Avremel Sirota** shared well-developed *divrei Torah* to the *nachas* of the kehila.

At Anash @110 **Dovid Steinmetz** shared an inspiring Torah messages to the delight of the shul members. May this example bring about many *talmidim* sharing Torah messages in more shuls and communities.
